

Tension is who you think you should be. Relaxation is who you are

Chinese Proverb

Ropes Course Challenge

Benefits

A course at the Successfactory will prepare your team for the future by:

- Creating high performance teams**
- Developing inspirational leadership behaviours**
- Unleashing innovation**
- Stretching beyond comfort zones**
- Testing and implementing new learning**
- Enhancing trust and decision making**
- Having fun with a serious intent**
- Understanding and valuing differences**
- Taking action to improve performance.**

Challenge-By-Choice

We operate a Challenge by Choice philosophy which means the level of participation always remains with the individual.

INVESTORS IN PEOPLE

Learning by doing...

The Successfactory™ ropes course is designed to create a dynamic learning environment where strong emotions prevail, real learning happens and positive changes are made to dramatically increase performance.

The excitement of tackling a series of team challenges at low level and suspended 20 - 40 ft. in the air can be life transforming. Trust, communication, behaviour, commitment, confidence, ability to work under pressure, attitude, drive, and teamworking are all explored in a challenging yet extremely supportive environment.

At Successfactory™ our successful experience shows that challenge with the right level of support is when real learning and changes occur. Without the stretch it is difficult to break free from limiting beliefs and old world habits. And no matter what the participants' age or physical ability they will find the rewards of spending time at Successfactory™ highly beneficial.

“
Real life and real learning begins at the edge of your comfort zone
